1. feature: a characteristic of a product
2. delivery: bringing goods to a customer
3. warranty: a promise about repairing or replacing a product
4. amount: a quantity of something
5. Sentence answers vary. Both words must be used in the taught senses and fit the context.

7. Accept supported connections to the supplied context. Ask which detail justifies each choice.

Review notes

The eight-card page supports retrieval. Concrete pictures illustrate only the sense defined here. Accept other accurate examples; a familiar spelling alone does not establish the right sense.
