Teacher vocabulary guide

CEFR A2 | Unit 7: Technology | Vocabulary

Use the meanings to check sense, then review the learner's own examples.

1. attach: add a file to a message
2. upload: send a file to an online service
3. folder: a place used to organize digital files
4. password: a secret code used to access an account
5. Sentence answers vary. Both words must be used in the taught senses and fit the context.
6. save means store work so it can be used later; error means a mistake or a sign that something has failed.
7. Accept supported connections to the supplied context. Ask which detail justifies each choice.

Review notes

The eight-card page supports retrieval. Concrete pictures illustrate only the sense defined here. Accept other accurate examples; a familiar spelling alone does not establish the right sense.

Placement

A2-U07 / ESL.VOC. Original supplementary practice. Skill links are proposed for review. Completion does not establish CEFR proficiency.
